

Nocturnal adventures: Owls, Frogmouths and Spotlighting with Stefan Hattingh

7.00 PM to 9.00 PM Thursday 3 October 2024

Deception Bay Environmental Hub, 7 Joseph Crescent Deception Bay.

This is your invitation to come along to our forum and learn about our nocturnal wildlife and meet a Tawny Frogmouth and a Boobook Owl. You will also have the opportunity to go on a guided spotlighting tour on the foreshore of Deception Bay. Make sure you bring a torch for the chance to spot arboreal animals and birds.

Stefan has a Masters in Environment Studies from the University of Pretoria, South Africa. He has a great passion for environmental education with over 30 years of experience. Stefan’s other passion is rescuing and treating owls. He is a registered raptor carer with Wildlife Rescue Queensland. He offers workshops on the impact of rodent poison as he sees so many owls die from secondary poisoning.

Stefan is currently employed by the City of Moreton Bay Council as a Senior Environment Officer, where he continues to provide environmental education for members of Land for Wildlife (LFW) and Bushcare groups.

Program Schedule

7.00 PM	Introduction to region’s nocturnal birds including the Boobook Owl and the Tawny Frogmouth
7.15 PM	Rodent control and avoiding
7.45 PM	Spotlighting tour of the Deception Bay Foreshore
